

## Fortran Specialist Group Membership Report

2009 – 10

Membership numbers are much the same as last year.

We had 183 members about a year ago and we have 184 currently.

These figures are based on the membership files I downloaded this month.

24 people joined and 23 have left.

I will contact the BCS about the members who have left and see if I can get information about their current BCS membership.

### Age figures

We have the following age breakdown

	Number of members
70-80	13
60-70	45
