

## Fortran Specialist Group Treasurer's Report 2014/15

The budget bid was for £2650 to cover running costs of £650 and special projects of £2000. The special projects consisted of David Muxworthy's IST/5 costs (£200) and WG5 costs (£1800 for David, John, and Nick Maclaren). The Group was allocated £650 for running costs and the special projects bid was deferred for a supplementary funding request later in the year.

In March, the Group applied for supplementary funding of £1800 for the WG5 meeting. We were asked for up-to-date detailed estimates, which came to £1654, and were granted £1800.

The IoP Computational Physics Group paid half the cost of the AGM afternoon meeting.

The total budget for the year was £2450 (650+1800). Spending was as follows

AGM travel	286.05
AGM food	271.24
AGM IoP	-245.00
WG5 London	1570.63
IST 5 London	50.55
Total	£1933.47

For 2015/16, the Group requested £4290 to cover running costs of £550 and special projects of £200 for IST/5 and £3540 for WG5 in Boulder. The Group was allocated £550 for running costs and were required to make supplementary funding requests for the special projects. In July, we applied for supplementary funding of £613 for John Reid's SC22 expenses beyond those covered by BSI. This was granted.

John Reid, 24/9/15
