

# Fortran Specialist Group Web Editor's Report

**2016 - 17**

I have been the Group's Web Editor for almost 20 years and I feel it is time for me to step down and let someone younger take on the role.

This year I have done very little on the website beyond updates arising from the 2016 and 2017 AGMs. There are also the photographs which Jane took at the 2015 WG5 meeting in London and the ones she took at last year's AGM which should go on the website.

The home page still shows me receiving a BCS Meritorious Service Award from November 2014. Should it be replaced with some of Jane's photos?

Earlier this year I received messages from two people relating to the early years of Fortran compiler development. They gave me information which should be used to update the [table of early Fortran implementations](#) which I created for the 50<sup>th</sup> anniversary of Fortran back in 2007.

David has reminded me that the link to the WG5 website on our [Fortran resources page](#) also needs to be updated.

I have been told by two members of the committee that they would be willing to take over as the Group's Web Editor. We will have to see if they are still willing when it comes to the elections under item (viii) of today's agenda!
