

Introduction

This years report is in three sections.

The first uses the current access mechanism to the membership data available via a PowerBI interface. Here is the link that Mandy Bower provided.

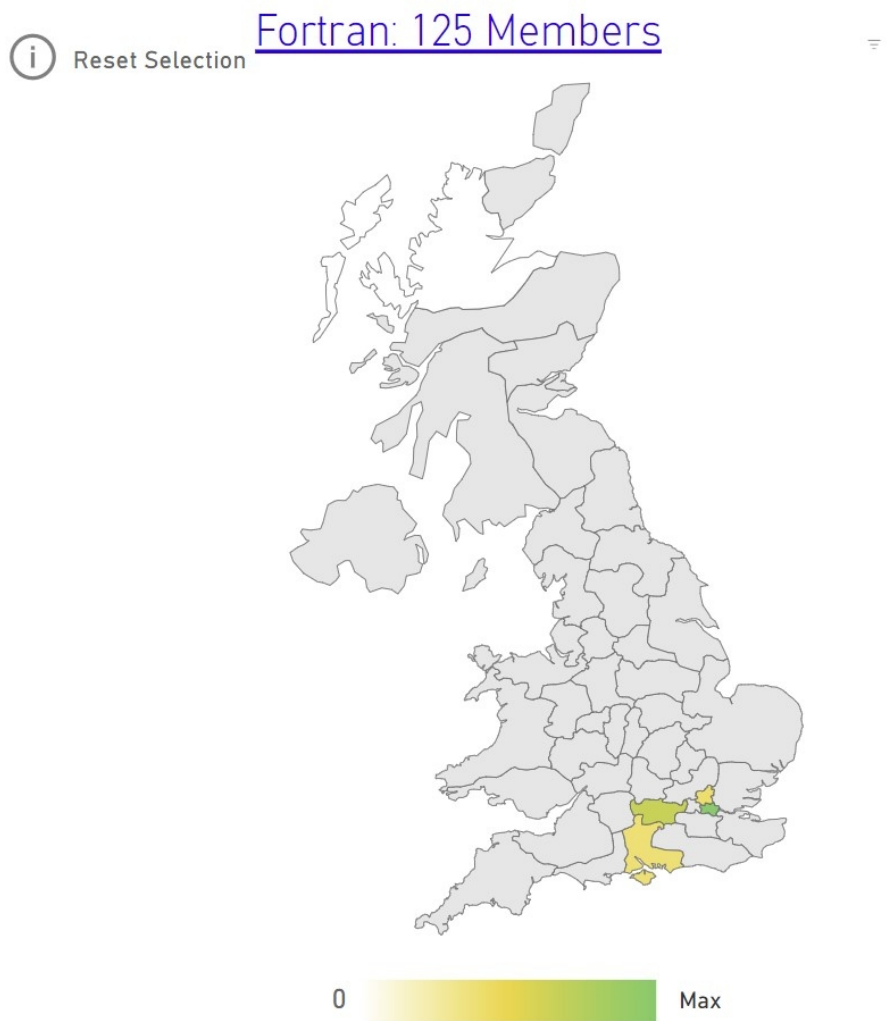

<https://app.powerbi.com/view?r=eyJrIjoiOGMxMTgzNTU0ZTE3Mi00NTk0LTU2EtY2MzNmEwY2IxNjVlIiwidCI6IjFjODY4OGY2LTZhNzQtNDI1ZC05ZTczLTg2MjVhODU1YmQxYyIsImMiOiJh9&pageName=ReportSection>

The second section uses historic data available from 2020-2017. Here we provide frequency tables using company names and job titles.

The third section uses data from 2010 to 2023 to provide age profiles and membership numbers.

Section 1 - PowerBI data

Screen shots for the Fortran group are given below.

Primary branch allocation based on postcode entered in membership sign-up.

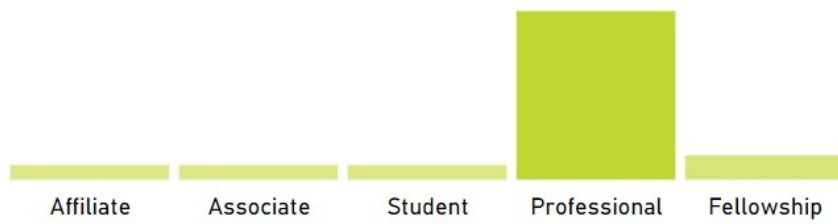

Grade	Member Count
Affiliate	<10
Associate	<10
Student	<10
Professional	104
Fellowship	15
Total	125

Section 2 - Job title and company name tables

The next set of 4 tables are based on the data that the BCS provided between 2010 and 2017. The first table is sorted by company name, then by frequency, the third sorted by by job title and then by frequency.

Sorted by Company name	Frequency
	84
57 Sterndale Road	1
